

KENSINGTON®

Optical Elite and Mouse•in•a•Box® Optical

For PCs and Macs

Ultra high speed precision. Maximum control. Never has “point-and-click” been easier. The Kensington Optical Elite mouse uses state-of-the-art optical technology and an exclusive Kensington design to provide smooth, effortless tracking. Ultra high speed optical sensors detect movement on almost any surface, and with no moving parts, no cleaning is necessary. With Kensington optical mice, you get power, comfort, and the assurance of high quality devices.

Optical Elite

With five programmable buttons and ultra high speed, precise cursor control, Optical Elite offers smooth, comfortable tracking and control.

- Easy Grip® rubberized sides for maximum control
- Streamlined, symmetrical design is highlighted with illuminated accents and can be used with either hand
- Self-contained, ultra high speed sensor guarantees optical precision and tracking on almost any surface, with no cleaning necessary
- Five customizable buttons plus the enclosed MouseWorks® software provide one-click solutions to repetitive mouse tasks, such as cut-and-paste, highlight, and more
- Integrated scroll wheel with lighted bezel allows easy paging through documents or Web pages
- High-tech colors complement any desktop
- Compatible with USB or PS/2 ports

72121 Optical Elite

*Ultra high speed, precise cursor control is at your fingertips with the **Optical Elite** five-button mouse.*

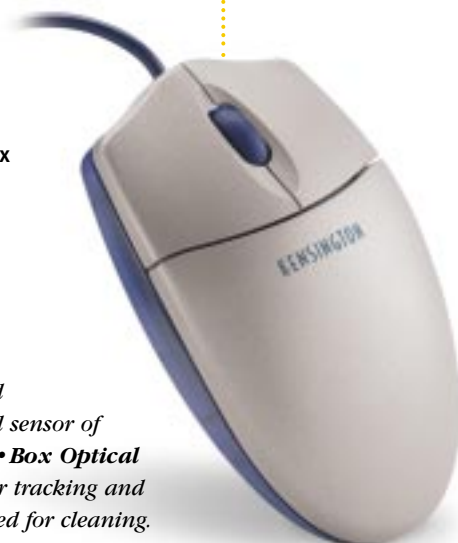

Mouse•in•a•Box Optical

The Mouse•in•a•Box Optical mouse uses an ultra high speed optical sensor to provide smooth, accurate movement on almost any surface.

- Better tracking and control allows you to work smarter and faster
- Completely enclosed electronics eliminate the need to clean moving parts
- Three programmable buttons help streamline repetitive tasks, like cut and paste or double-click
- The scroll wheel makes it simple to page through long documents or Web sites
- Plug-and-play ease with USB port or PS/2 versatility
- Designed for use with either the right or left hand

72123 Mouse•in•a•Box
Optical

*The self-contained high speed optical sensor of the **Mouse•in•a•Box Optical** provides smoother tracking and eliminates the need for cleaning.*
