

## Digital Scribe (GPEN100C) Digital Pen and USB Receiver Captures your Handwriting

Model # GPEN100C

### Description

IOGEAR's Digital Scribe is the first device ever to capture natural handwriting from any surface, and store it directly onto your computer. Based on a revolutionary digital pen that uses ordinary ink refill and writes on any paper, the Digital Scribe stores handwritten notes, memos or drawings onto your computer screen for easy editing right away or save it for a later time.

### The Latest IOGEAR Press

IOGEAR's Digital Scribe allows you to express your thoughts in your own handwriting, personalize messages to friends, family, co-workers, convert your handwriting into typed text, and more! The Scribe can also act as a substitute for your mouse making it easy to switch between application you wish to write in. The digital pen can also supplement your keyboard for text input and speed up your work in hundreds of software applications that let you customize and create shortcut features.

**Take full advantage of Windows VISTA, Use Microsoft's "One Note", once only offered to Tablet PC User; IOGEAR's Digital Scribe can turn any desktop PC or notebook into a Tablet PC.**

#### **Capture all your information in one place**

- Utilize Microsoft's OneNote to capture handwritten notes or typed text, draw diagrams and pictures.

#### **Take advantage of enhancements and new features in OneNote 2007**

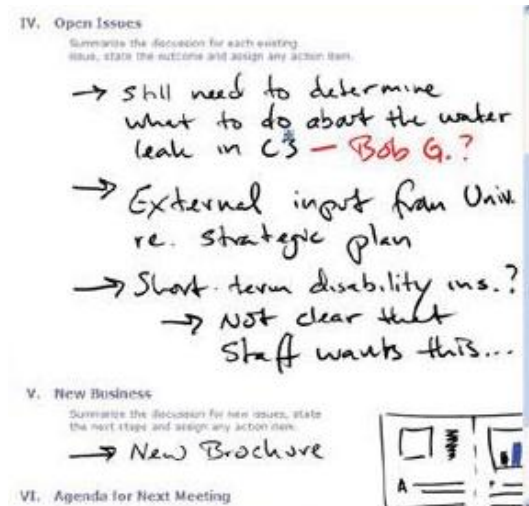

- OneNote 2007 offers improved ink performance, customizable pens, support for the scratch-out gesture, and a better eraser, using ink is easier than ever.

#### **Organize notes the way you prefer**

- Mix handwritten notes, typed text, and graphics on the same page easily.

#### **Work more naturally and comfortably**

- Easily handwrite notes or draw a diagram at the library, during a lecture, or while on the go—then search or convert those notes to text later.

### Find the information you need quickly

- You can quickly search across all of your handwritten notes or typed text in OneNote 2007.

### Prioritize important items more efficiently

- You can add Note Flags to your handwritten notes, view all of your Note Flags at once, customize them to call out key categories

### Complete your research quickly and easily

- Gathering research information has never been easier.

### Collaborate more effectively

You can send handwritten notes in an e-mail message after a meeting, use a digital projector to create a real-time whiteboard for brainstorming sessions.

## Features

### What is MyScript Notes Lite?

MyScript Notes is an application that can convert handwritten notes, shapes, tables and drawings into digital information ready for further use.

- 10 Language Support (English, Spanish, Simplified Chinese, French, Dutch, Italian, German, Portuguese, Swedish and Russian)
- Full editing capabilities allow easy modifications - you can highlight, annotate, add additional information, adjust ink color, ink width, and page color.
- Use the PEN as a Mouse, pen acts as a 2 button mouse.
- Create Sticky Notes on your desktop - keep reminders, to-do lists, and phone numbers close at hand.
- Set reminders on specific notes - with the special reminder function that pops up notes at specified dates and times.
- Export notes in JPEG format - share notes easily.

## Function Diagram
