

Mini Optical Mouse

Mac • Optical • PC • PS/2 • USB

Here's an optical mouse that performs in the smallest spaces. It's compact enough for travel and comfortable enough to use as your primary mouse.

Full-fledged optical performance in a smaller, contoured shape that easily fits left or right hands. This mouse is compact enough to take anywhere, comfortable enough to use as your primary mouse. Fully customizable yet simple to set up, it plugs easily into both PCs and Macs.

- Compact size for both comfort and portability
- Short USB cable provides convenience in even the tightest spaces
- Extension cable is perfect for fast desktop connection
- Scroll wheel speed searches through documents and the Web
- Three customizable buttons and a scroll wheel

Optical Precision and Maximum Performance

- Tracks motion optically without a ball
- Take it along everywhere
- Compact shape fits left and right hands
- Use it with desktop and notebook systems
- Short USB cable for convenience in tight spaces
- Extension cable for desktop use
- Fits right and left hands
- Three buttons
- Scroll wheel
- Five-year warranty
